ABOUT THE COLLEGE

The Tamil Evangelical Lutheran Church (T.E.L.C) was born in 1919 to serve the cause of the poor, downtrodden and the marginalized sections of the Tamil Society. Realising the need for the establishment of a centre for higher education the T.E.L.C. chose Porayar, a rural hamlet in the erstwhile Thanjavur District for starting its first higher education institution. The vision was brought into reality with the rise of Tranquebar Bishop Manikam Lutheran College which was named after Late Rt. Rev. Dr.R. B. Manikam, the first Indian Bishop of the Church. It became an important land mark in the annals of the T.E.L.C on 19th June 1972. The Government of Tamil Nadu approved the establishment of the college vide its Government Order No. 1888, Education Department dated 29.11.1972. The College now offers 14 Undergraduate, 12 Postgraduate Courses and 8 Research Programme leading to M.Phil., and Ph.D.

ABOUT THE DEPARTMENT

A Cooperation as an academic discipline was introduced in India and spread out in Tamil Nadu at few places. The Cooperation Department is a pioneer Department in T.B.M.L. College, Porayar traces its origin in 1973 when the first degree course of B.A. Cooperation was introduced. The Department was promoted as Post Graduate Department in 1977.

The Department of Cooperation has grown gradually and entered with new vision in the field of research by introducing M.Phil.,

(Full- Time & PartTime] and Ph.D., [Full-Time & PartTime] in 1984 and 1988 respectively. The meritorious, meticulous and devoted services rendered by the Legends and the 'Two Pillars' of Cooperative Department: Dr.S. Nakkiran and Dr. Frank Ratnakumar, the T.B.M.L. College, Porayar is identified in the Map of India. The Department of Cooperation is a premier Research Centre in India & Abroad and one of the leading Research Departments in the field of Cooperation

ABOUT THE SEMINAR

Cooperatives have been organized in response to many different challenges. Important waves of co-operative formation have been associated with periods of profound social and economic change. New openings are also created in a uniquely human fashion by changes in sensibilities, perceptions, and preferences, and changes in aspects of culture in the realm of ethics and aesthetics. There is an opportunity to examine the changing climate for cooperative enterprise, including new social, economic, and environmental pressures, and the record of corporations and co-operatives in responding to these challenges. One of the challenges for the GP will be to prioritise the socio-economic development issues and inclusive development of marginalized sections of the community over routine infrastructural developments as the experience had been bulk of the investment is

flowing towards such infrastructure creation. The focus areas may include basic services, economic development & poverty reduction, human development, social development, ecological development, public service delivery, effective governance, SDGs, skill development, child protection and development, spatial planning, digital enablement including e-enablement of Panchayat for good governance and public service delivery, critical infrastructure development etc.
