#### **Coaching for Competitive Examinations**

The Department of Mathematics planned to conduct an Add-On- Course for the academic year 2021-2022 in the month of March by an expert Mrs.K.Devanayaki,Vidhyaa Educational Centre, Karaikal who readily accepted our invitation to conduct the course to face various competitive examinations.

The Inauguration of Add-On- Course was held on 13-05-2022 with the Principal, Course Teacher, Head & Faculty of the Department along with students who enrolled their names for the course.

The function started with prayer by Dr Stephen Dinagar, Associated Professor of Mathematics for the successful conduct of the course. It was followed by welcome address by Dr.J.Joseline Manora, Associate Professor of Mathematics. Our Head of the department Dr.Thangaraj Beaula presided over the function and motivated the students to undergo the course. Our Principal Dr.Gene George advised the students by a special talk. She explained about many competitive examinations conducted both by State & Central Government, Staff Selection Commission, Banks and Railway Recruitment Exams and shared her experience she had in education center. At last Dr.Lilly Esthar Rani (Coordinator) proposed vote of thanks.

The course was conducted free of cost for around 50 students for 30 hours till 1.06.2022. Participants were thoroughly exposed to all competitive examinations and geared themselves to face them boldly. Course completion certificates were provided who actively participated in this course.

## QUAIL FARMING - SCOPE & MANAGEMENT

### Objective

The term quail farming means, raising quails commercially like other poultry birds for the purpose of profitable eggs and meat production.

### Unit - I

Introduction of quail farming, important aspects of quail farming, Japanese quail meat, Japanese quail sale.

### Unit-II

Quail species new Zealand quail, pop white quail, chinak quail, Madagascar quail, California quail, new Guinea quail, Japanese quail.

### Unit-III

Quail rearing system, underground method, cage culture methods

### Unit-IV

Quail feeds, breeding, quail eggs, chick care.

### Unit-V

Quail disease Nutritional deficiency disease, Disease caused by microorganisms, umbilical inflammation, E.coli disease, quail dropping and fungal disease, Pneumonia, fungal poisoning.

## REPORT

The continued rise in human population in the developing countries necessitates the need to establish additional sources of animal protein. In this situation, the demand for poultry products has been increasing. To meet up the growing demand for poultry products without importing them, the development of poultry industry is very important. Quail does not only supply animal protein in the form of meat and eggs, but also provides a source of income. The quail farming as a supplement to chicken and duck farming has the unique advantage of tapping the growing market demand for poultry products. The time has now come for creating alternative employment opportunities for the educated people. The self-employment scheme is one probable answer and quail farming seems to be a promising enterprise in this direction. The quail farming witnessed rapid expansion in urban areas. These farms are producing meat, eggs and quail-chicks/pullets. However, quail farming has not yet been popularized in rural areas. It is very important to know the potential of and constraints to commercial quail farming in the socio-economic environment of India. Quail was introduced in India during the year 1974 from California. There are two species of quail in India; the black-breasted quail found in jungle (*Coturnix coromandelica*) and the brown-coloured Japanese quail (*Coturnix coturnix japonica*) which is bred for meat or the one used for commercial quail production. The Japanese quail is the largest species, it is much smaller than pigeon. While Indian quail weighs upto 100 g and lays 100 eggs a year, the Japanese quail weighs up to 250 g and lays 250 eggs a year. Quail egg is roughly one-fifth the size of a chicken's egg and weighs around 10g. The eggshells are spotted, with colours ranging from white to brown. Nutritionally, the quality of these eggs is at par with that of chicken eggs; rather they contain less cholesterol. The proportion of yolk (the yellow inside part) to albumen (the white part), is at 39:61 which is higher compared to chicken eggs. The quail has the advantage of small size, short life cycle, rapid growth rate, good reproductive potential and shorter hatching periods when compared with the different species of poultry. The quail meat is popular for its high protein, essential fatty acids and minerals such as sodium, potassium and iron.

### **REPORT OF ADD ON COURSE 2021 - 2022**

#### **Coaching for Competitive Examinations**

The Department of Mathematics planned to conduct an Add-On- Course for the academic year 2021-2022 in the month of March by an expert Mrs.K.Devanayaki,Vidhyaa Educational Centre, Karaikal who readily accepted our invitation to conduct the course to face various competitive examinations.

The Inauguration of Add-On- Course was held on 13-05-2022 with the Principal, Course Teacher, Head & Faculty of the Department along with students who enrolled their names for the course.

The function started with prayer by Dr Stephen Dinagar, Associated Professor of Mathematics for the successful conduct of the course. It was followed by welcome address by Dr.J.Joseline Manora, Associate Professor of Mathematics. Our Head of the department Dr.Thangaraj Beaula presided over the function and motivated the students to undergo the course. Our Principal Dr.Gene George advised the students by a special talk. She explained about many competitive examinations conducted both by State & Central Government, Staff Selection Commission, Banks and Railway Recruitment Exams and shared her experience she had in education center. At last Dr.Lilly Esthar Rani (Coordinator) proposed vote of thanks.

The course was conducted free of cost for around 50 students for 30 hours till 1.06.2022. Participants were thoroughly exposed to all competitive examinations and geared themselves to face them boldly. Course completion certificates were provided who actively participated in this course.

**Department of English  
Add-on Course – 2023**

**Bakers & Makers  
Report**

In the department of English, the Add-on Course 'Bakers & Makers' was inaugurated by our eminent Head of the Department, Ms. M. Hannah Gladys on 13.09.2023. She had assigned Ms. T. Ponni as Co-ordinator and Dr. JH. Caroline Divya as Assistant Co-ordinator for the 15-day course from 13.09.2023 to 11.10.2023. The course helped young minds to develop the skills in domestic bakery industry and work as apprentice bakers in the future. During the course period, the students learned about elementary first-aid, firefighting, environment regulation, and housekeeping. Our distinguished Co-ordinator, Ms. T. Ponni explained to the students how to identify trade tools, kitchen equipment, and kitchen operation process. Students became aware of the importance of personal hygiene, cleanliness of bakery utensils, food handling, and hygiene protective clothing. Training was given on safe handling of bakery equipment and other hand tools. Students were asked to identify basic baking ingredients, and spices used in the bakery. The Co-ordinator baked and prepared different types of cakes, icing, rolls, and pastries. The students were thus trained during the period of the course.

### **REPORT OF ADD ON COURSE**

#### **ON**

#### **"Data Science with R & Python Programming"**

To enhance the general aptitude of our students, the Department of Mathematics has conducted Add on Course on **"Data Science with R & Python Programming"** during 13/09/2023 – 09/10/2023 for the benefit of students of our institution. The objective of the Course is to introduce career and market-oriented, skill enhancing add-on courses that have utility for job, self-employment and empowerment of the students. At the end of course, the students will be equipped with a wide knowledge in Computer technology.

#### **During Inaugural Session of Add on course.....on 13/09/2023**

The opening prayer for the inaugural session was led by assistant professor of mathematics Dr. S.Christinal Gunaseeli. Dr. Stephen Dinagar, Associate Professor of Mathematics, welcomed the gathering. Dr. Thangaraj Beaula, the program Convener, Vice Principal & Head of the mathematics department, delivered the presidential address during the inaugural session. Earlier, the Course objectives were introduced by Dr.R.Irene Hepzibah, Assistant Professor of Mathematics & Coordinator of the program. At the end, Dr.D.Rajan Associate Professor of Mathematics proposed the vote of Thanks.

**Technical Session handled by Dr.R.Judith Kiruba, Assistant Professor of Computer Science**

**Technical Session handled by Ms.R.Apoorva, Assistant Professor of Computer Science**

**Technical Session : Hands on programming with R**

**Technical Session : Hands on programming with Python**

The 10 technical sessions of the Course were handled by Dr.R.Irene Hepzibah, Assistant Professor of Mathematics, Dr.R. Judith Kiruba, Assistant Professor of Computer Science and Ms.R.Apoorva, Assistant Professor of Computer Science. The course modules cover topics such as Introduction to Statistics, Normal Distribution, Sampling, R overview and Installation, Descriptive Data Analysis using R, Hands on programming with R, Data Manipulation packages, Introduction to Python, Python basics & Programming and Hands on programming with Python. Around 35 students participated in the programme and benefited.

## **Course Title: DATA SCIENCE WITH R & PYTHON PROGRAMMING**

### **Course Objectives:**

- **To learn different statistical methods for Data visualization.**
- **To understand the basics of R and Python.**
- **To understand the usage of the packages**

### **Course Modules:**

#### **UNIT I - Introduction to Statistics:**

Introduction to Statistics- Difference between inferential statistics and Descriptive statistics. Inferential Statistics- Drawing Inferences from Data, Random Variables, Normal Probability Distribution, Sampling, Sample Statistics and Sampling Distributions.

#### **UNIT II - R overview and Installation:**

Overview and About R, R and R studio Installation, Descriptive Data analysis using R, Description of basic functions used to describe data in R.

#### **UNIT III - Data manipulation with R:**

Data manipulation packages - Descriptive Data Analysis using R- Data visualization with R.

#### **UNIT IV - Python:**

Introduction to Python- How to Install Python- Python Scripting basics and Programming

#### **UNIT V - Data Visualization Tools in Python**

Specialized Data Visualization tools - Advanced Data Visualization tools

### **TEXT BOOKS:**

1. Core Python Programming - Second Edition, R. Nageswara Rao, Dream tech Press.
2. Hands on programming with R by Garrett Golemund, Shroff /O'Reilly; First edition
3. Fundamentals of Mathematical Statistics by S.C. Gupta, Sultan Chand & Sons
